**RE: 102<sup>nd</sup> Annual Kansas Transportation Engineering Conference Postponed**

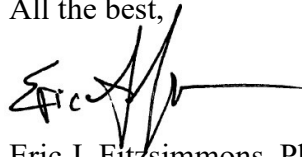

Dear Colleagues and Friends,

The 102<sup>nd</sup> Annual Kansas Transportation Engineering Conference scheduled to be hosted at Kansas State University April 14-15, 2020 has been postponed. This decision was made out of an abundance of caution for our engineering friends and following newly released mass gathering guidance by the Centers for Disease Control and Prevention (CDC) mass gathering guidance in response to COVID-19 on March 15, 2020. The conference planning committee will be exploring possible fall 2020 dates to hold the conference, and updates will be provided on the conference website at <https://conferences.k-state.edu/transportation/> and through email communication.

In the meantime, registration fees will be refunded via the same method used for payment. Kansas State University is not responsible for other costs, charges or expenses, including cancellation/change charges assessed by airlines or travel agencies.

Again, I apologize for breaking this important annual Kansas tradition that I know many of you look forward to attending every year. The health and safety of civil engineers in the State of Kansas is paramount and I hope we can look back next year and agree that the appropriate decisions was made to postpone the conference. If you have specific questions, please feel free to reach out to me – otherwise, the conference website will provide all answers to most of your questions.

All the best,

Eric J. Fitzsimmons, Ph.D., P.E.  
Hal and Mary Siegele Professor of Engineering  
Assistant Professor, Department of Civil Engineering  
Carl R. Ice College of Engineering
